§ 77401. Legislative Findings and Intent.

(a) I Liheslaturan Guåhan finds that several sports facilities within the Department of Education have fallen into disrepair. Whether the facilities are damaged by natural disaster, old age, or simply due to the

12 GCA AUTONOMOUS AGENCIES
CH. 77 SPECIAL PROJECTS AND ACTIVITIES OF THE GUAM ECONOMIC DEVELOPMENT AUTHORITY

lack of maintenance, it is of importance that these facilities are restored to a usable and safe condition in order to ensure that students are provided with a venue to hold their physical education classes, athletic competitions among public and private school students, science fairs, school plays, and dances, among other extracurricular activities.

(b) However, I Liheslaturan Guåhan also finds that the government of Guam is financially strapped and therefore cannot afford to allocate additional funding for major works that public school sports facilities require.

(c) Consequently, I Liheslaturan Guåhan calls for community involvement in guaranteeing that our students continue to have functional gymnasiums and other sports field, which can also be used by the public on special events during the weekends, such as the Special Olympics and Relay for Life. In order to provide incentives to those willing to contribute towards the construction, development, upgrading, repair or maintenance of any public school sports facilities, it is the intent of I Liheslaturan Guåhan to authorize tax credits to any individuals making contributions to public school sports facilities for the above purposes.

- § 77505. Approval of Contributions.
- § 77506. Miscellaneous.
- § 77507. Rules and Regulations.

§ 77501. Legislative Findings and Intent.

As a result of the damage caused by the typhoons and super-typhoons that have plagued our Island in the last five (5) years, Guam's outdoor sporting facilities have deteriorated dramatically. Guam's youth and adult sporting leagues are left searching for sites to hold their annual sporting competitions. It is the consensus of I Liheslaturan Guåhan that the development and construction of a multi-purpose outdoor sports facility will enhance the growth of such outdoor sports as football, soccer, tennis, baseball, softball, and rugby on Guam and attract not only regional and international events, but also Asian professional and college teams seeking a venue for spring training, giving a much needed boost to Guam's tourism industry. The University of Guam, with its existing outdoor sports facilities provides a suitable location for the development of a first class outdoor multi-purpose sports complex.

§ 77502. Tax Credits.

Guam sole proprietorships, corporations, partnerships, and limited liability companies making contributions towards the development, construction, financing, maintenance, and improvement of an outdoor multi-purpose sports complex at the University of Guam shall be entitled to tax credits against those excise taxes levied against the contributor pursuant to Chapter 22 (Annual Excise and Admission Taxes), Article 3 of Chapter 26 (Alcoholic Beverage Tax), Article 6 of Chapter 26 (Tobacco Tax), and Chapter 28 (Use Tax) of Division 2 of Title 11 of the Guam Code Annotated. All "tax credits" referred to in this Article shall mean tax credits applied against excise tax liabilities.

§ 77503. Maximum Amount of Tax Credits Authorized.

The aggregate amount of tax credits authorized by this Article for all contributors shall not exceed One Million Dollars (\$1,000,000).

§ 77504. Determination of Amount of Contribution for Donated Merchandise.

The amount of contribution of any donated merchandise used in the development, construction and improvement of the outdoor multi-purpose sports complex at the University of Guam shall be the actual cost of the item plus the cost of transportation from the point of origin to its destination without profit, mark-up or taxes.

§ 77505. Approval of Contributions.

The University of Guam or its designee shall be responsible for approving the contributions made towards the development, construction, financing, maintenance, and improvement of the outdoor multi-purpose sports complex at the University of Guam.

§ 77506. Miscellaneous.

The tax credits authorized by this Act shall be subject to the following conditions:

(a) Tax credits that cannot be applied during a single tax year may be applied to excise tax liability in subsequent years.

(b) A single contributor shall only be entitled to claim tax credits up to Twenty-Five Thousand Dollars (\$25,000.00) per month, not to exceed Three Hundred Thousand Dollars (\$300,000.00) per year or tax credits shall not be applied to more than fifty percent (50%) of the contributor's monthly excise tax liability.

(c) To be eligible for the tax credits authorized by this Article, contributors must be licensed to do business on Guam.

§ 77507. Rules and Regulations.

In accordance with the Administrative Adjudication Law, the Guam Economic Development and Commerce Authority shall formulate rules and regulations governing the issuance of the tax credits and the allocation of the aggregate tax credits among contributors authorized by this Article.

§ 77902. Legislative Statement.

(a) I Liheslaturan Guåhan recognizes the urgency of improving safety conditions and the quality of care provided to the people of Guam by the island’s only public hospital, the Guam Memorial Hospital Authority (GMHA). Although task force groups were established and community conversations have occurred during the past several years regarding the rehabilitation and modernization of GMHA facilities and services, a clear path forward that will guide the development of a new public hospital facility has yet to materialize.

(b) It is, therefore, the position of I Liheslaturan Guåhan that a task force be established to coordinate efforts by the government of Guam to develop a new public hospital facility, including rehabilitation and/or replacement plans involving the current Guam Memorial Hospital Authority facility. I Liheslatura acknowledges the development of a new public hospital facility as a critical planning initiative of the government of Guam through the support of the Guam Economic Development Authority (GEDA). Included within the enabling statute of GEDA is 12 GCA § 50103(a), which recognizes that “...there exists an acute shortage of adequate, modern and efficient hospital facilities in Guam and that unless measures are adopted to alleviate such conditions, the need for such facilities will become increasingly more urgent and serious. It is hereby declared that the safety, health and welfare of the people of Guam requires the provision of adequate, modern and efficient hospital facilities in the various parts of Guam, and that it is the policy of Guam and a purpose of this Division to provide the means necessary for the acquisition, construction and provision of hospital facilities to serve the general public and to make reasonably accessible to all the people of Guam modern and efficient hospital facilities.”
